Applicant Name:

Organisation/Company:

Project Title:

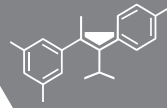

Number of years funding requested (Max 3):

**1. Briefly describe the key outcomes for industry.**

In 300 words or fewer, describe the problem you want to solve or opportunity you want to create. What would change in industry as a result of this project?

**2. Describe your project objectives and how they will deliver the outcomes identified in question 1.**

In 300 words or fewer, provide bullet points on objectives. How would success be measured? Does your proposed budget include extension and communication?

**3. Describe the research approach of your project.**

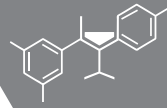

In 300 words or fewer, describe the research undertaken to achieve the objectives in question 2.

**4. Outline the novelty of this project to existing wine research or current practice.**

The intent of this fund is to bring new approaches and ideas to research for the benefit of New Zealand Winegrower members. In 200 words or fewer, explain how this project brings novelty to the industry.

**5. Outline how IP will be managed.**

Final reports for all funded projects will be made available to industry. Does your project have implications for intellectual property (IP)? If so, how do you propose this IP is managed?

**6. Explain how your project aligns with priorities for the wine industry's science strategy.**

In fewer than 300 words, describe how your project addresses a maximum of three of the priorities found on page 7 of this application. This may include environmental, economic, social or cultural benefits.

**7. Please provide contact details of the applicant organisation for which funding is requested:**

Applicant Legal Name (organisation):
